## Onkel Hotte

– der wohl widerlichste Märchenerzähler Deutschlands

Herrlich Widerlich! Herrlich Ekelhaft! Das sind nur zwei der am häufigsten in Zusammenhang mit seinem Namen genannten Attribute.

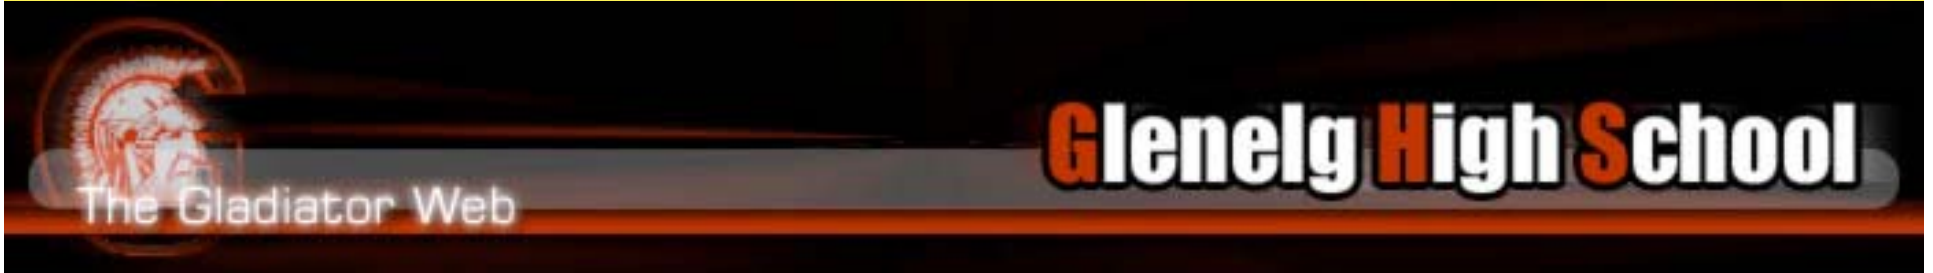

Als ungehobelter Märchenerzähler getarnt, rotzt und schleimt sich das Unterhemdmonster Onkel Hotte durch unsere Muttersprache, vergewaltigt sie und wirft den geschändeten Torso als eines seiner sogenannten "Geschichtelein" dem sabbernden Publikum zum Fraße vor. Allein der Gedanke, diese Schmuddelprosa könnte in die Hände der schützenswerten Jugend gelangen, läßt jedem verantwortungsvollen Erwachsenen das Blut in den Adern gefrieren.

According to a 10 year study researched by Lance Ferris of Australian Seabird Rescue – fishing line entanglement was responsible for 94% of life threatening or debilitating conditions from rescued or retrieved pelicans. the other 6% was made up of disease, powerline strike, boat strike, and chemical pollution.

Many pelicans and other seabirds die a slow and painful death after becoming entangled. Often attempts by the bird to free itself only results in the animal becoming more and more entwined. Infection and the inability to feed is a sad end for these peaceful majestic birds.
